

**APPENDIX E - INSPECTION REPORT**  
**Construction Storm Water Pollution Prevention Plan**  
**Pedestrian & Bike Trail**

Project Name: \_\_\_\_\_

Inspection Date: \_\_\_\_\_ Time: \_\_\_\_\_ Inspector: \_\_\_\_\_

Current Weather Condition: \_\_\_\_\_

Reason for Inspection:  Regular Inspection  Post Rainfall (Rainfall Amount \_\_\_\_\_)

**STAGE OF CONSTRUCTION:**

_____ Pre Construction	_____ Initial Installation of BMPs
_____ Site Clearing	_____ Rough Grading
_____ Temporary Stabilization	_____ Finish Grading
_____ Final Stabilization/Post Construction	

**INSPECTION CHECKLIST:**

**YES NO N/A**

- [ ] [ ] [ ] Construction entrance adequately maintained?
- [ ] [ ] [ ] Have all sediment controls been placed prior to site disturbance?
- [ ] [ ] [ ] Have all sediment control measures been properly utilized?
- [ ] [ ] [ ] Have all soil stockpiles been stabilized with appropriate BMPs?
- [ ] [ ] [ ] Are all perimeter controls installed and maintained?
- [ ] [ ] [ ] Are finished slopes adequately stabilized?
- [ ] [ ] [ ] Are temporary stabilization practices adequately utilized?
- [ ] [ ] [ ] Have all disturbed areas been temporarily or permanently stabilized within 14 days?
- [ ] [ ] [ ] Are drainage outlets adequately stabilized and maintained?
- [ ] [ ] [ ] Do all storm water inlets have adequate protection?
- [ ] [ ] [ ] Does permanent vegetation provide adequate stabilization?
- [ ] [ ] [ ] Are utility trenches stabilized properly?
- [ ] [ ] [ ] Are soil and mud kept off public roadways at site access points?
- [ ] [ ] [ ] Are all perimeter controls installed and maintained?

**APPENDIX E - INSPECTION REPORT**  
**Construction Storm Water Pollution Prevention Plan**  
**Pedestrian & Bike Trail**

**INSPECTION CHECKLIST CONTINUED:**

**YES NO N/A**

- Have all temporary control devices that are no longer needed been removed?
- Have all control repairs and sediment removal been performed?
- Are seeding, mulch and other stabilization methods adequately maintained?
- Are measures being taken to control dust?
- Are utility trenches being properly backfilled, compacted and stabilized?
- Have all silt fences been repaired and/or replaced after utility work?
- Are seeding, mulch and other stabilization methods adequately maintained?
- Are temporary stream crossings of non-erodible material installed where applicable?
- Are sediment filtering devices being used during dewatering activities. Please describe dewatering activity and controls being used?

---

---

---

- Is there evidence of sediment leaving the site affecting downstream property (public roadways, waters, wetlands streams, lakes)?

---

---

---

**What corrective action measures are being taken to bring the site into compliance:**

---

---

---

---

---

**Deadline date for all corrective action measures:** \_\_\_\_\_

**Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_
