RE: Vehicle Purchase

Dear Mary,

The City of Lexington is seeking approval to use our grant funds for the purchase of vehicle. This purchase will allow our staff to continue to execute our stormwater management plan. We have added a staff member to help with the execution of our plan and feel an additional means of transportation is needed to ensure this happens. I have enclosed the proposal we have chosen.

Thank you Mary,

Bill Brecks
Chief Building Inspector
City of Lexington

1. REFERENCE:

The purchase of a vehicle using Nebraska Department of Environmental Quality grant funds. The 2010 Ford F-150 is ideal for the tasks required by a stormwater technician.

2 Cost:

<i>Cost</i>	<i>Model #</i>	<i>Cost</i>	<i>Quantity</i>	<i>Extended Cost</i>
2010 Ford	F-150	\$15,709.00	1	\$15,709.00
TOTAL COST				\$15,709.00

3. FUNCTIONAL DESCRIPTION:

The 2010 Ford F-150 enables the stormwater technician to complete all aspects of the Storm Water Management Plan. Tasks include wet weather sampling, attending training, construction site visits, investigate illicit discharge and cooperative (Nebraska H2O) meetings throughout the state of Nebraska. This vehicle will be solely used to support aspects of the stormwater program.

4. CURRENT METHOD:

A vehicle from the Street Department is currently used.

5. SAVINGS/BENEFITS:

The overall benefit is that the stormwater technician would have first, a means of transportation to support the stormwater program and secondly, a location for storage of sampling equipment. The time that would be saved in loading coolers, equipment and sampling containers would increase opportunity for field testing and field observation.

6. COMPARABLE ITEMS EVALUATED:

The City of Lexington reviewed asked for proposals from our local auto dealerships.

7. OPERATIONAL COSTS:

No major operational costs associated with this vehicle. The City of Lexington will perform routine maintenance to the vehicle. The City will also provide fuel for operation.

8. QUALIFIED USERS:

The Stormwater Technician will be qualified to operate this vehicle.
