ELECTRIC POWERED

Lawn and Garden Tools

Maybe it's time to go electric

Gasless, but not gutless. Quiet, but not shy. This is not your grandfather's battery-powered mower. Advances in battery technology have come a long way in recent years. More power is now being packed into batteries so your mower can speedily deliver a knock-out punch to your lawn.

Maybe it is time to consider upgrading your conventional, gas-burning mower with a new electric or battery-powered option. Consider the following advantages:

- Lower energy costs – depending on how often you mow, electric-powered mowers will cost about \$15 per year in electricity. Gas mowers use approximately \$30 of gasoline.
- Less maintenance – no sparkplugs, air filters, fuel filters, or oil change.
- Quieter operation – electric mowers create up to 75 decibels of sound, which is similar to a washing machine. Gasoline mowers can exceed 95 decibels, which is comparable to a motorcycle on the highway.
- Eco-friendly – no toxic gas emissions from nitrogen oxides, airborne particulates, carbon monoxide, or carbon dioxide.

Follow these easy steps

- Obtain an EnergyWiseSM Lawn and Garden Tools application form from your participating local utility.
- Purchase your choice of a new (not used, previously owned or factory reconditioned) battery-powered or corded electric riding, walk behind, or robotic mower on or after January 1, 2022. Chargers and additional battery purchases are available for the incentive at time of initial mower purchase. However, taxes, delivery/shipping and set up costs are not.
- Complete the application and return it to your local utility with a copy of proof of purchase identifying the selected mower batteries, etc.

LAWN AND GARDEN TOOLS APPLICATION

ATTENTION: Incentive application must be completed and submitted to your local electric utility along with the proof of purchase. Contact your local utility with any questions.

- 20% incentive on any new battery-powered or corded electric lawn mower.
- Must be brand new and purchased on or after January 1, 2022.
- Eligible mowers include riding, walk behind, and robotic.
- Incentive amount is based on purchase price (taxes, delivery/shipping and set up costs are NOT eligible).
- Additional battery purchases are available for incentive at time of initial mower purchase.

1. CUSTOMER INFORMATION: Electric Utility: _____

Name: _____ Phone # _____

Mailing Address: _____ Account # _____

City & Zip: _____ Meter # _____

2. EQUIPMENT INFORMATION:

Brand name: _____ Model # _____

Lawn mower: ☐ Riding ☐ Walk behind ☐ Robotic

Price of equipment _____ x 20% incentive = **Total of \$** _____

3. I ACKNOWLEDGE this information is in compliance with the program guidelines.

Customer:

Signature Date

4. APPLICATION PROCESS:

Complete application and submit application with proof of purchase to the customer's electric utility provider. Program guidelines can be found at www.EnergyWiseNebraska.com

Incentives valid as of 1-1-2022. Subject to change without notice. Verify incentive amounts and program information at EnergyWiseNebraska.com. Sponsored by Nebraska Public Power District in partnership with its Wholesale Utility Customers.
